

BENUGO SUSTAINABILITY SNAPSHOT 2024

FOOD & DRINK

Our coffee is 100% Rainforest Alliance Certified. We have chosen this certification as, in addition to trading fairly with local farmers, it also takes the planet into consideration.

96% of our fresh eggs are UK RSPCA Assured free-range. Every Benugo manufactured products, from our cakes to our sandwich fillings are made with UK free-range eggs.

We work with Life Water who is the UK's first zero plastic solution to water on the go. Since the start of our partnership, we have funded 65 clean water projects, providing 52,127 people with clean water.

At all of our sites we offer plant-based milk alternatives free of charge to encourage more frequent use.

We put a focus on UK sourced foods that align with seasonal availability, such as British potatoes which are available all year round, compared to strawberries which we use in their season.

We have access to Siewo, a system in which we can precisely monitor our carbon emissions in our food supply chain. This allows us to target the challenging areas of our supply chain and implement emission reducing solutions.

In addition to working with UK Red Tractor our milk options are entirely UK sourced and a third is accredited organic.

We are a Founding Partner of Food Diversity Day, a movement that highlights the UK's most endangered foods and celebrates them in hand-crafted meals.

All our grab & go and bakery ranges have a carbon count displayed, allowing customers to see the impact of their food to help inform decision making.

All our scoop serve ice cream is made by B-Corp registered, family-owned businesses with milk sourced from UK dairies and with full farm to cone/tub traceability.

OTHER

We have consistently been working to remove packaging from back of house areas with reusable crates now being used. This has led to 17 tonnes of cardboard annually being eliminated from our supply chain

Our sandwich packaging contains cellulose. Cellulose is a certified bioplastic, made from a plant-based polymer derived from cotton or wood pulp.

We encourage reusable cup use, offering hot drinks at a discounted price to further the move from disposables.
